SUMMARY

I am a dedicated and enthusiastic web developer with a strong foundation in HTML, CSS, and JavaScript, complemented by my ongoing learning in PHP. Passionate about creating user-friendly and responsive web applications, I am committed to continuously expanding my knowledge and skills in the field of web development. With a keen interest in solving challenges and a proactive approach to learning, I aim to contribute effectively to projects while enhancing my expertise in modern web technologies.

PROJECTS

Advocate Accounting System   **November,2023**

Technologies Used: HTML, CSS, JavaScript, PHP.
- Designed and developed a web-based system to streamline case management and improve transparency in billing processes for advocates. Enabled efficient tracking of case details, schedules, and payments, reducing the risk of duplicate billing using dashboards.
- Enhanced accessibility and usability through an intuitive, responsive user interface built with HTML, CSS, and JavaScript. Integrated backend functionality using PHP for secure data handling and dynamic content management.
- Aimed to promote fairness in the legal profession by minimizing unethical practices such as duplicate fee collections.

Centralized Automated Solution for Price Estimation and Reasonability   **September,2024**

Technologies Used: HTML, CSS, JavaScript, PHP, Web Scraping Tools, NodeJS, MONGODB.
- Developed a web-based platform to aggregate product prices from multiple public domain sources, enabling users to estimate reasonable prices efficiently.
- Implemented web scraping techniques to extract and compile pricing data for various products and services.
- Aimed to improve efficiency and reduce manual effort in price estimation, particularly for government procurement and auditing purposes.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Engineering   **Sep 2022 - July 2026**

LDRP-ITR │Gandhinagar │ Gujarat.
- Relevant coursework in Data Structures, Web Development, Software Engineering, Database Management Systems, Design & Analysis of an Algorithm, Programming in Java.
- CGPA : 9.28/10

ADDITIONAL INFORMATION

- **Technical Skills:** HTML, CSS, JavaScript, PHP, C, Git, MySQL, Visual Studio Code, Bootstrap.
- **Certifications:** Python for Data Science - NPTEL , SSIP Hackathon - SSIP Cell.
- **Achievements :** Finalist in SSIP Hackathon 2023 held at Pandit Deendayal Energy University (PDEU), demonstrating innovation and technical proficiency in solving real-world challenges.
